

Cleaner and Thinner

Description

Cleaner and Thinner is a solvent-based product which can be used for all degreasing and cleaning work. It is particularly advisable to use it where, for safety reasons, solvents which may be physiologically harmful must not be used.

Properties

- does not attack plastics, paints and metals
- suitable for any type of degreasing work
- for cleaning heavily contaminated parts
- excellent solvent properties

Technical data

Boiling point	80 - 110 °C
Shelf life	60 Monate (Original verschlossen) / 60months in unopened can
Vapor pressure at 30 °C	~ 6,7 kPa
Odor	charakteristisch / characteristisch
Base	Kohlenwasserstoff / Hydrocarbons
Color / appearance	farblos / colourless
Form	flüssig / liquid
Density at 20 °C	~ 0,714 g/cm ³
Flash point	-20 °C ISO 1523 (Rapid Equilibrium, closed cup RECC)

Areas of application

Cleaner and Thinner has universal application. However, it is used in preference as a cleaner for surfaces which will be treated afterwards.

Application

Cleaner and Thinner can be applied using washing, immersion, spraying and flooding methods. Larger parts and machines are best sprayed with Cleaner and Thinner or wetted with a wide brush, rag or something similar and scrubbed in the case of heavy contamination.

For working notes check the safety data sheet.
